UMARALI IMOMALIEV

FULL-STACK SOFTWARE ENGINEER | PRODUCT DELIVERY

+998 93 941 65 31 | umaraliy092@gmail.com | Tashkent, Uzbekistan

Personal website: umaraliy.pro | GitHub: https://github.com/Aliy26

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3+ years of professional experience building and maintaining web applications, backend services, APIs, and production infrastructure. Combines hands-on engineering with product ownership, requirements analysis, client communication, and end-to-end delivery. Experienced in TypeScript, React, Next.js, Node.js, NestJS, Python/FastAPI, relational and NoSQL databases, Docker, and CI/CD.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Redux Toolkit, RTK Query, Tailwind CSS, Material UI
Backend & APIs: Node.js, NestJS, Express.js, FastAPI, GraphQL, REST APIs, WebSockets, Socket.IO
Databases & Caching: PostgreSQL, MySQL, MongoDB, Redis, ClickHouse
DevOps & Infrastructure: Docker, Docker Compose, PM2, NGINX, Linux, AWS, CI/CD
Tools: Git, Yarn, Turborepo, Postman, Figma

PROFESSIONAL EXPERIENCE

JCG Inc. | *Sep 2025 – Oct 2026*

Product Manager & Full-Stack Developer

- Owned end-to-end product and technical delivery of CosMos AI, a 146K-line, 49-table enterprise platform (V1-to-V2 migration) serving the Korean Chamber of Commerce, spanning 205 API endpoints, six-role RBAC across organisation, academy, duty, and agency dimensions, and automated document workflows.
- Acted as the primary technical and product contact for a flagship institutional client, translating business requirements into technical specifications, resolving production issues, and scoping features from discovery through delivery.
- Diagnosed and resolved system-wide regressions introduced during a compressed platform migration, tracing issues across multi-dimensional authorization and data-matching layers.
- Designed and delivered automated workflow features, including document-compliance reminders and weekly-report notifications, with edge-case handling for holidays, leave exceptions, and opt-out logic.
- Managed executive-level client relationships and expectations, balancing technical delivery with direct stakeholder communication and negotiation.

ITC Global | *Apr 2023 – Jul 2025*

Full-Stack Developer & DevOps

- Developed and maintained monolithic applications supporting GraphQL and REST API services, batch processing, and web-crawling workloads.
- Integrated Node.js, TypeScript, NestJS, and GraphQL to build flexible APIs and improve data retrieval.
- Containerised and deployed applications using Docker Compose, PM2, ShellJS, and NGINX.
- Applied software design patterns and backend architecture practices, including MVC, middleware, dependency injection, decorators, and caching.
- Built and maintained frontend features with Next.js, including App Router and Pages Router implementations.
- Integrated APIs using Axios, Fetch, and Apollo Client, and managed client-side server state with React Query.
- Implemented real-time application features using WebSockets, Socket.IO, and TCP-based subscriptions.
- Monitored application processes with PM2 and infrastructure metrics with Grafana.

EDUCATION

Dongseo University — Bachelor's Degree | 2018–2023
